## BIG FRENCH FORCE QUIETLY DEPARTS

Frankfort People Unaware That Half of Army of Occupation Quits.

PARIS, April 18.—Demands for withdrawal of French forces sent into German cities east of the Rhine, abandonment of new colonial expeditions, such as that in Syria at present, and release of the class of 1918 from the colors are made in a manifesto issued by the General Federation of Labor in calling upon workers to join in the May day strike. These demands should be adopted, it is said, to "show the world that France wishes for peace."

Instructions by the federation declare the strike is to be undertaken in collaboration with workers of other countries, and add: "Military, capitalist and profiteers are responsible for present economic conditions, which ought to disappear."

FRANKFORT, April 18 (By the Associated Press).—The French announced this morning that the withdrawal of the 37th Division to Wiesbaden had been completed with the exception of staff officers, who are leaving this afternoon. So quietly was the withdrawal carried out that the people of Frankfort are still unaware that half of the French occupation forces are gone.

The division included the Moroccan and Algerian troops, whose presence in Frankfort was greatly resented by the populace. No colored soldiers are here now.

Gen. de Metz and his staff attended mass in the Frankfort Cathedral this morning.

Berlin View of Withdrawal.

BERLIN, April 19.—The Vossische Zeitung today points out that with the removal from the Ruhr region of the reichwehr troops in excess of the permitted number, there are increasing signs of French withdrawal from the Frankfort area. The French troops, it says, are gradually evacuating the new bridgehead astride the main river established at the time of the recent French advance. They have already left the zone of occupation east of Frankfort, the newspaper states, while there are now no foreign troops at Offenbach or Muheim.

Strike Feared in Upper Silesia.

BERLIN, April 18.—The situation in Upper Silesia is serious, according to a semi-official dispatch received here today. A general strike is threatened which will reach all the trades and professions. Officials say the strike will come as a consequence of the tentative commission alleged "interference in the administration of justice and the political rights of Silesians in the plebiscite area."

Mass meetings were called for today in Oppeln, Kattowitz, Koenigsbuehle, Clevelt and other centers to determine upon joint action.

The semi-official statement charges that the French general Lerond, head of the interallied commission in Upper Silesia, "is displaying pronounced pro-Polish partiality and working for the complete severance of the plebiscite area from Germany."

The general strike weapon was rejected by trades union mass meetings in ten towns of upper Silesia Sunday. According to the Vossische Zeitung, this step was taken on the ground that the Poles would in such circumstances resort to forcible measures. Resolutions were adopted at the meetings protesting against the entente's prohibition of the formation of workers' councils.

(A London dispatch of Sunday, quoting advices from Berlin, said that the French authorities had threatened to open the frontiers and permit Polish troops to march through in case the railway men should strike in Silesia.)

An official statement given to the press today regarding the arrest on Friday of three reichwehr officers and three civilians on the charge of conspiracy against the government gives the circumstances of the arrest and adds that the examination of the men disclosed nothing directly incriminating them.

ZURICH, April 18 (Havas).—According to a Wolff Bureau dispatch from Berlin, the German government has ordered the reichwehr troops to evacuate the neutral zone in the Ruhr region on April 24.

American Naval Men Wait.

PARIS, April 16.—The American section of the interallied commission to supervise the naval disarmament of Germany is still being held here by the Navy Department at Washington. The men arrived here in January and have been awaiting ratification of the peace treaty in order to permit American participation, but meanwhile the work has virtually been completed by the commission.

The section comprises about twenty men, under command of Rear Admiral House, who will retire in June. The section is divided into two groups, one for naval disarmament and the other for naval aerial disarmament.

## JAPANESE CLASH ON RAILROAD REPORTED

Fighting West of Harbin; Kolchak's Remnant Army Joins Forces With Gen. Semenov.

HARBIN, Manchuria, April 14 (By the Associated Press).—While Japanese troops were removing arrested workmen from the railway station at Kharbin, on the Trans-Siberian railway, near the Transbaikalian border, other Russian workmen threw a bomb, to which the Japanese replied with rifle fire, according to reports received here. Several troops, the reports say, thereupon fired on the Japanese from an armored car. A fight followed which lasted three hours and resulted in a number being killed or wounded on both sides.

HARBIN, Manchuria, April 12 (By the Associated Press).—Fighting is reported between Japanese and Chinese troops on the railroad to the west of Harbin. South of this city the Japanese have occupied several stations on the railroad to the north of Changchun.

Gen. Votchkovsky, with a remnant of the Kolchak army, has joined forces with Gen. Semenov and is co-operating with the Japanese, evidently with the intention of establishing a new anti-bolshevik front beyond Manchuria station, on the Trans-Siberian road, near the Transbaikalian border. It is believed here that the Japanese intend to occupy the line as far as Lake Baikal.

The committee of railway employees recently formed here, which sought to seize control of the Chinese Eastern line, was temporarily suppressed by the Japanese. The present control board consists of five Chinese and five Russians, under the management of M. Machinoff, but there have been no no-

visible effects of the Chinese participation in the management, regarding which there are innumerable complaints of graft and defective control. The interallied technical commission, of which John F. Stevens, the American engineer, is to head, is powerless to do anything under present conditions to improve the railway situation and it is expected that it will leave the country shortly, homeward bound.

The late Daniel Emmett, composer of "Dixie," has been placed in nomination for election to the hall of fame of New York University.

## DISMISSES LAUNDRY ORDER.

Justice Bailey of the District Supreme Court has dismissed a restraining order that he had issued on behalf of the Tolman Laundry against the Arcade Laundry and Sunshine Dry Cleaning and Dyeing Company and Arthur Jessup, one of its drivers, enjoining them from soliciting laundry business among the customers of the Tolman Laundry at nearby Maryland town. It was claimed by the Tolman Laundry that Jessup was using the knowledge he had gained while an employee of that laundry to get business for the Arcade Laundry after he left the employ of the Tolman Laundry. The Tolman Company was not entitled to dry, but the court, upon motion of the Attorney Alvin L. Newmeyer, representing the defendants, held that the restraining order should be dismissed.
